

Limitsor

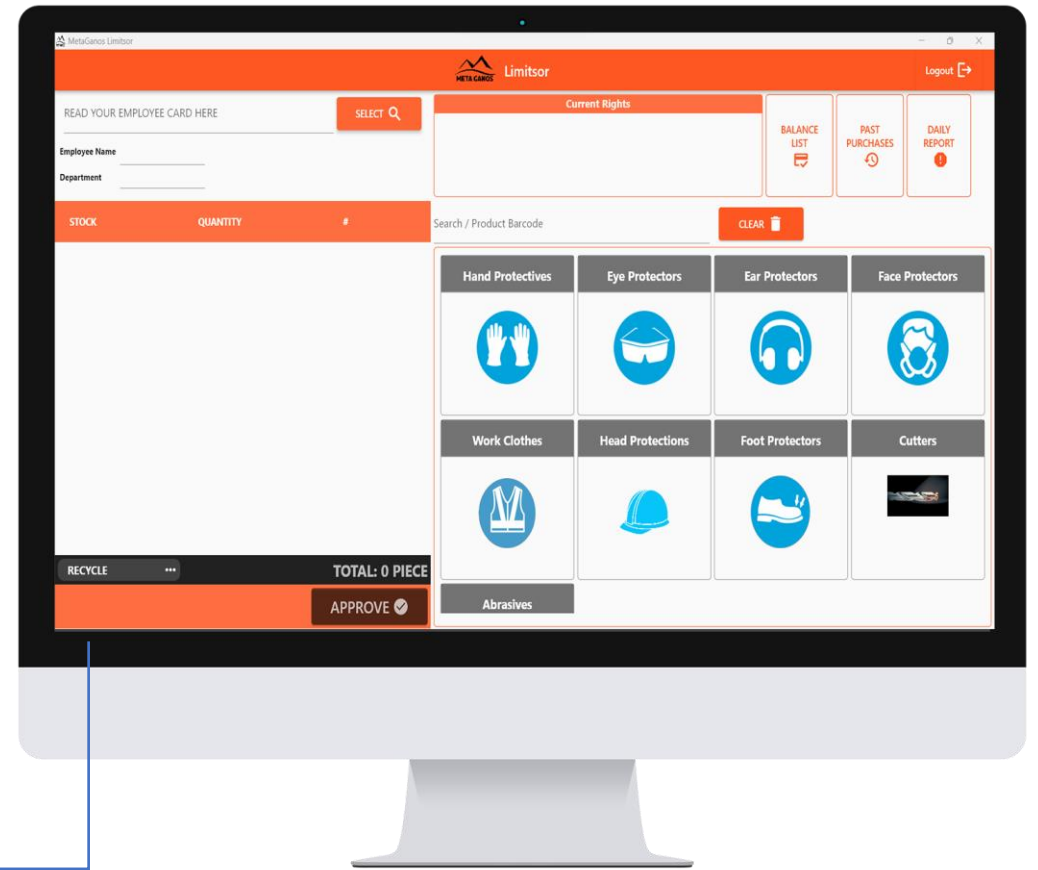

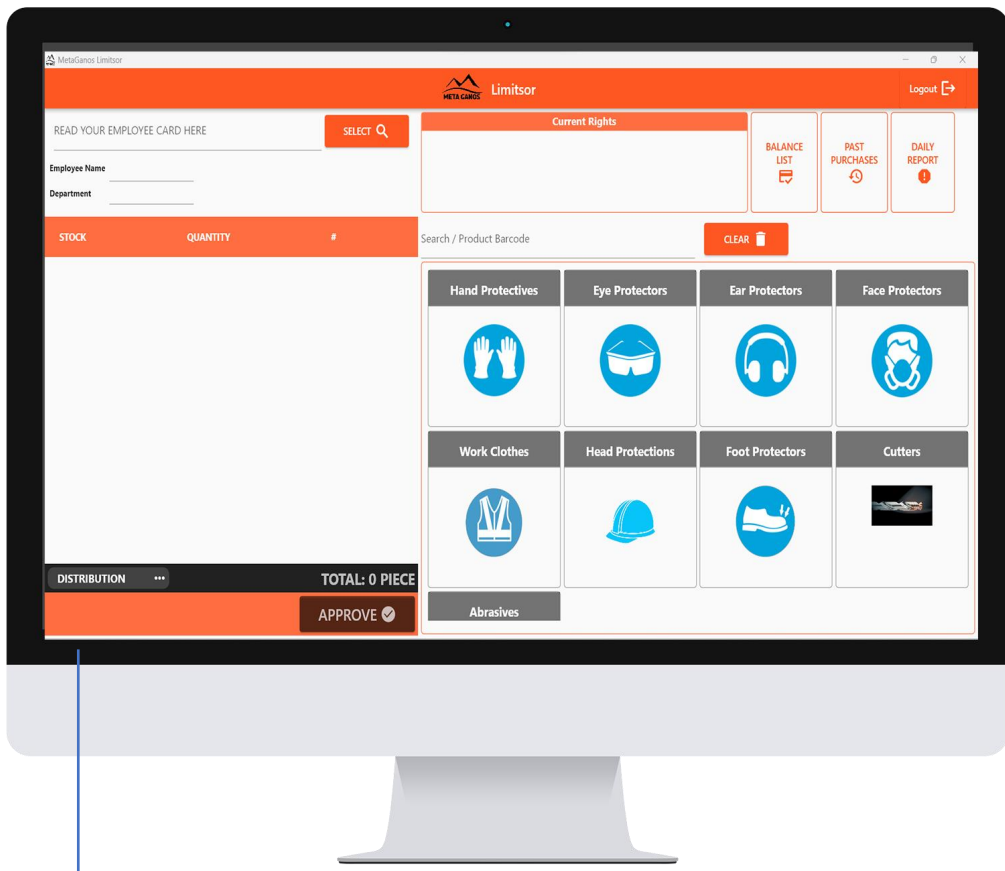

Card Reader

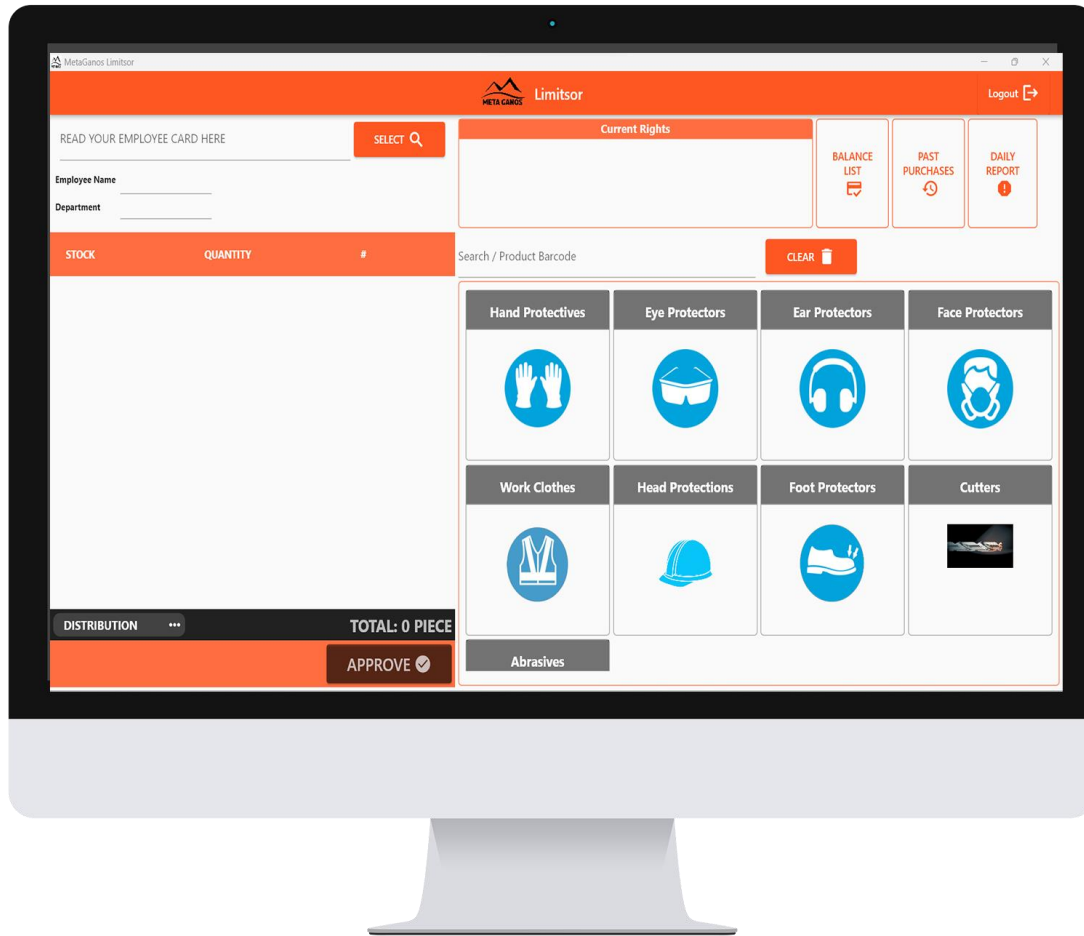

Computer

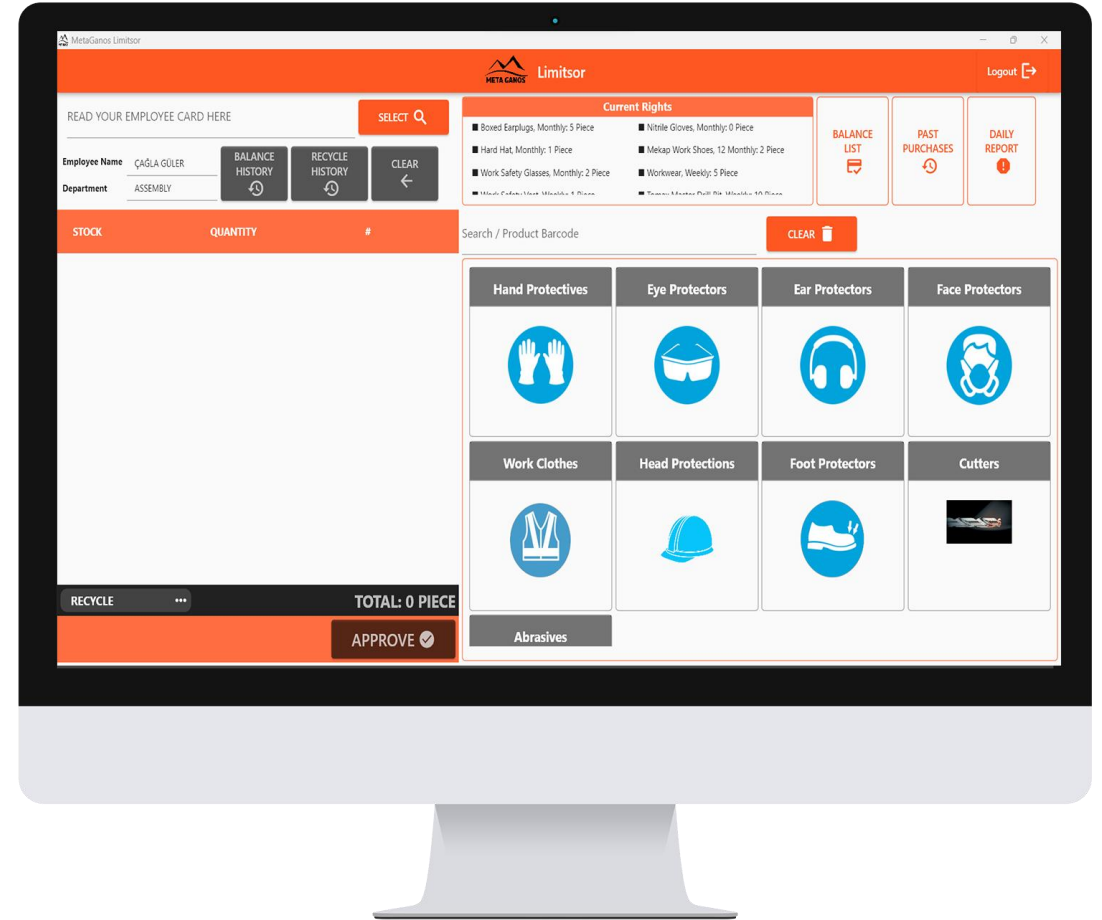

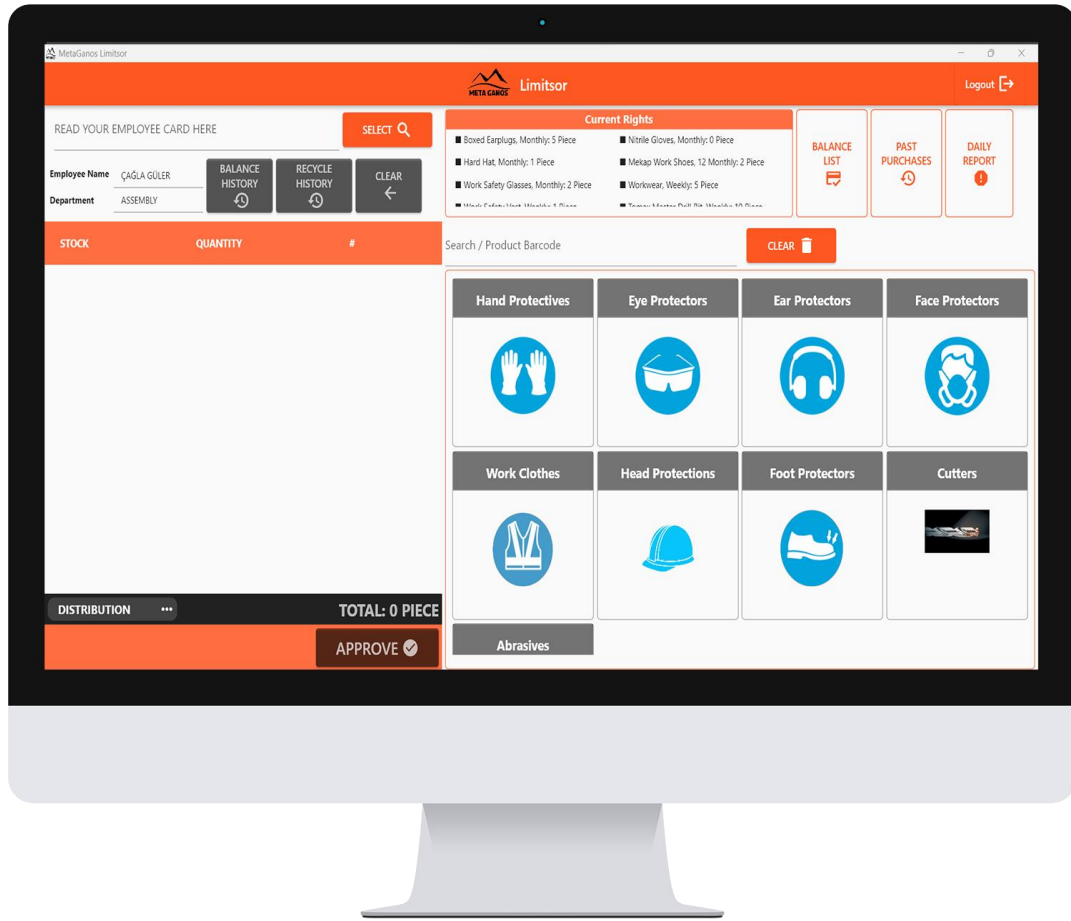

You can distribute all the products from your warehouse to your employees with entitlement through the software and receive the return of the distributed products.

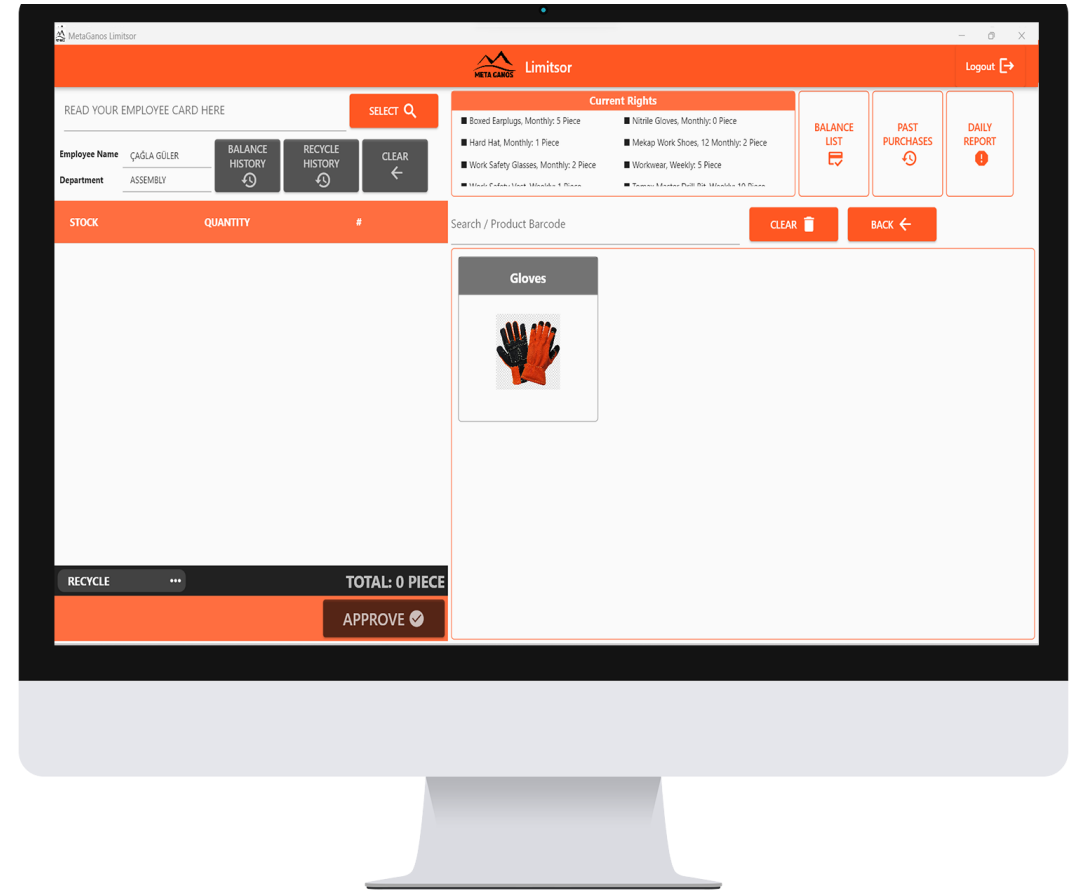

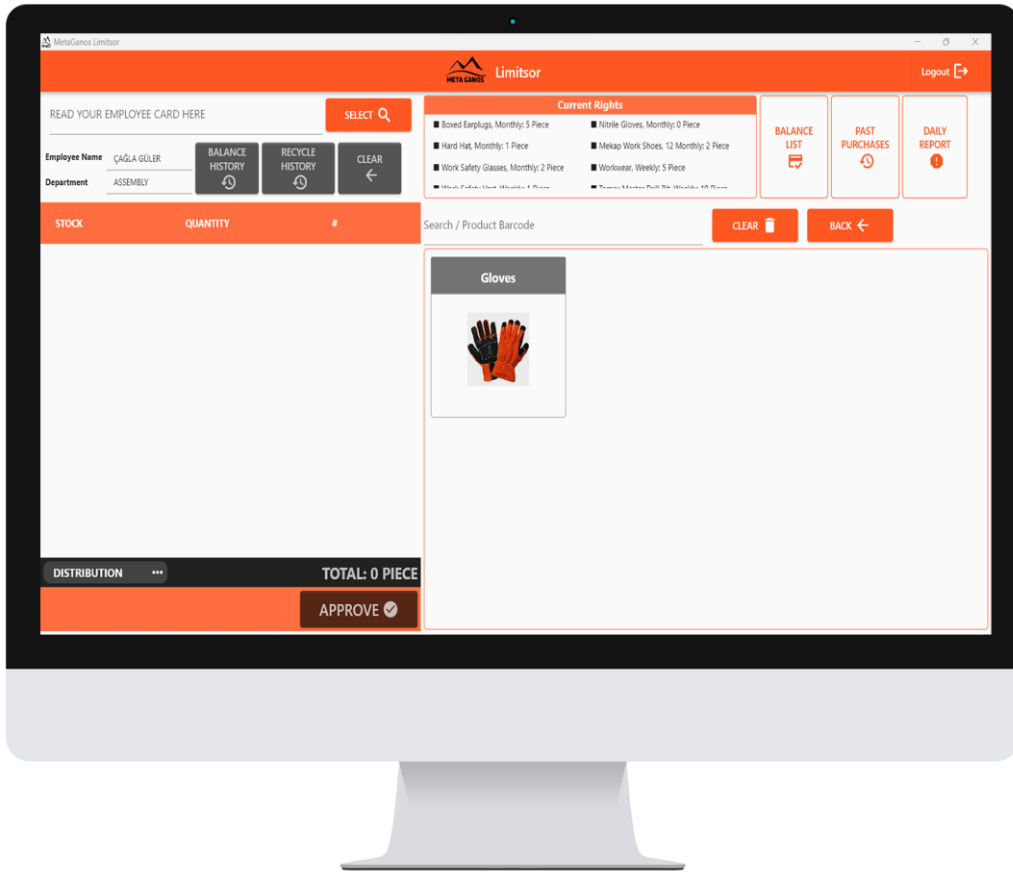

The distribution or return interface should be determined first

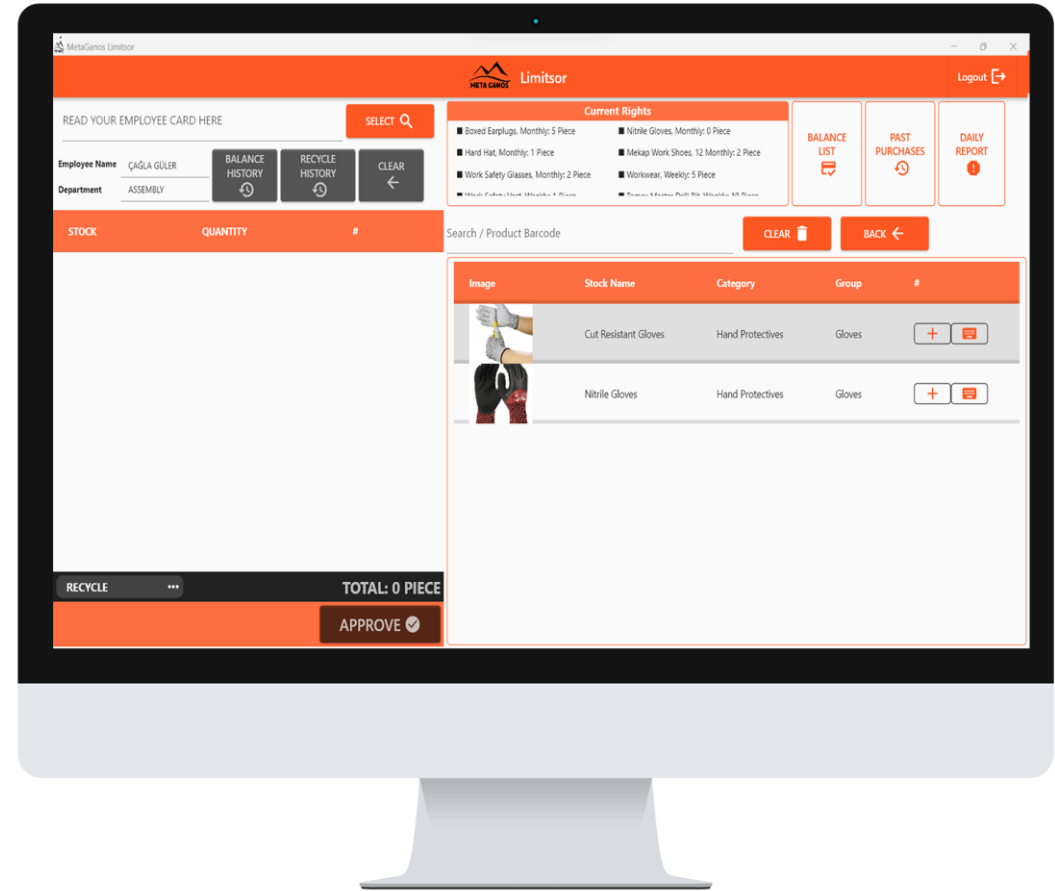

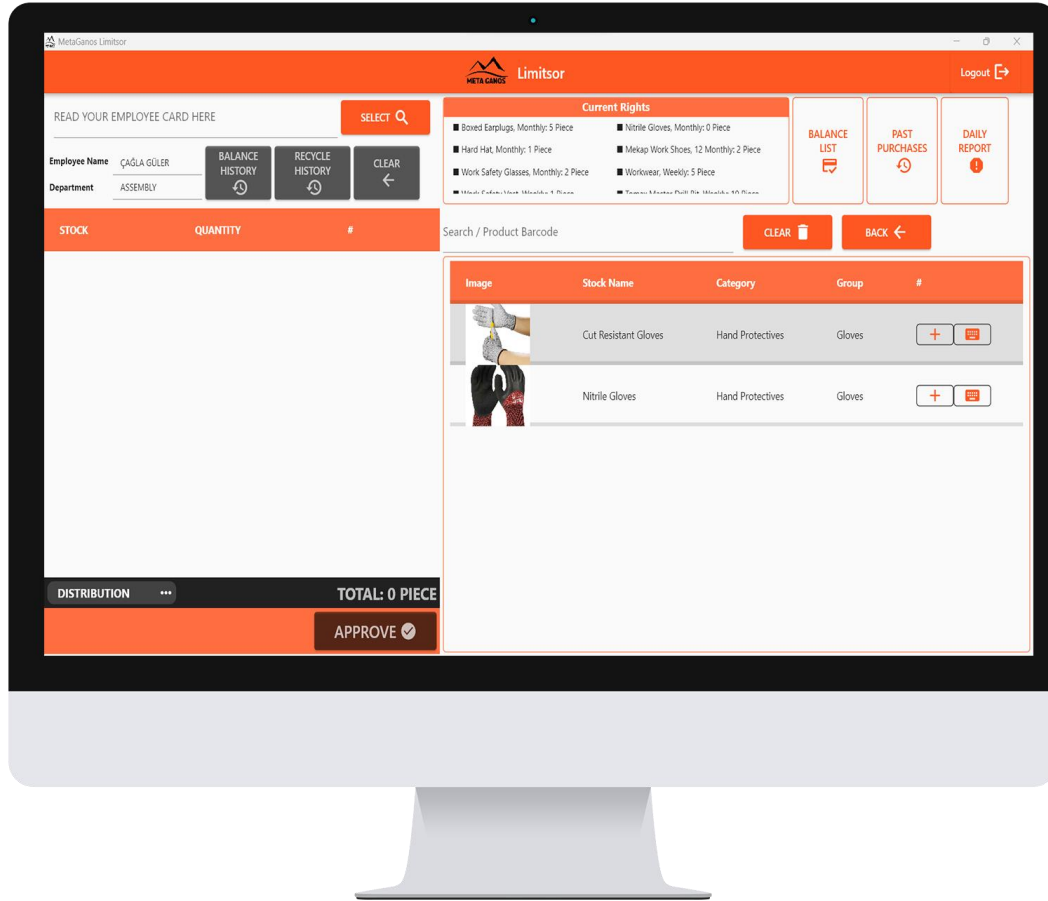

After selecting the distribution or return interface, the employee scans their card into the reader.

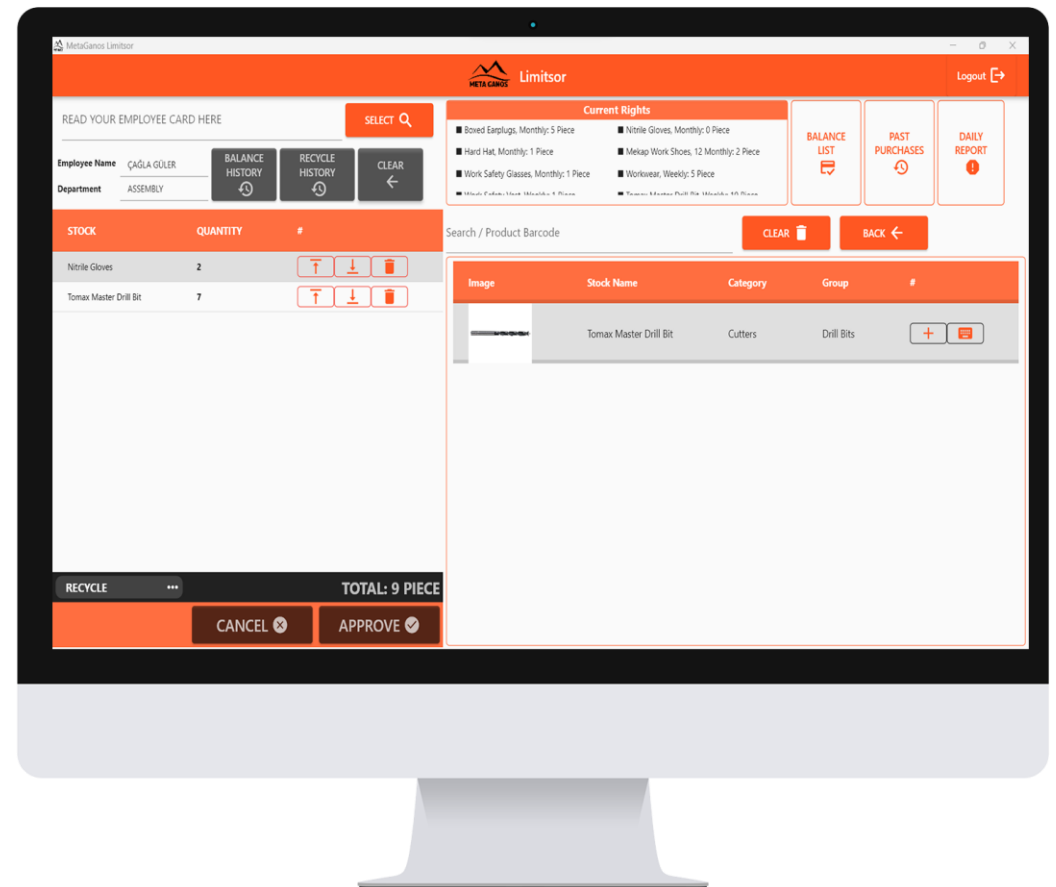

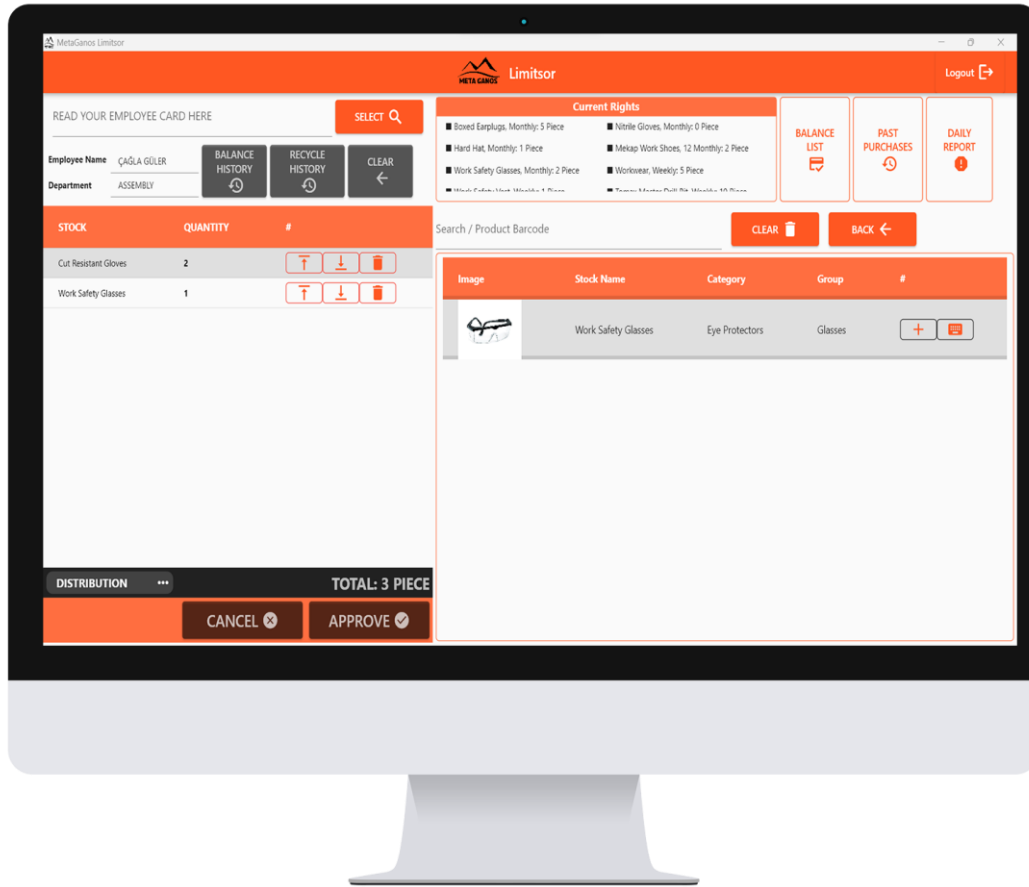

The products and entitlements assigned to them appear on the screen

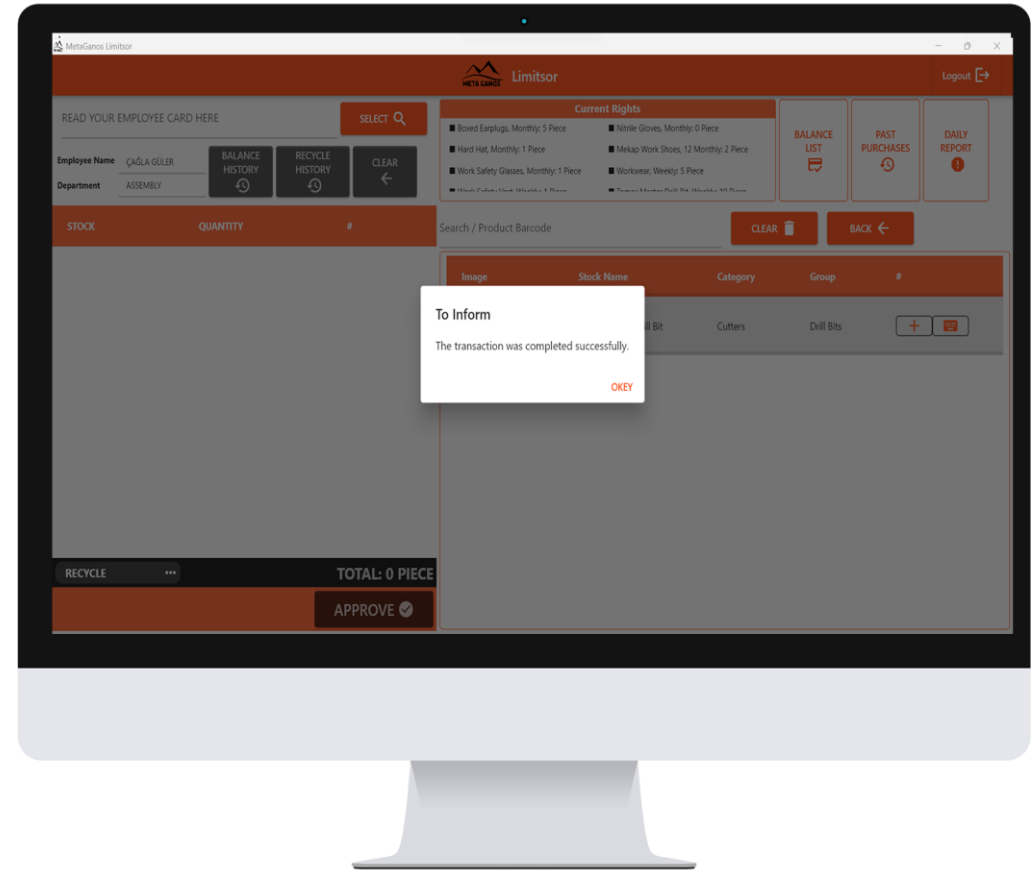

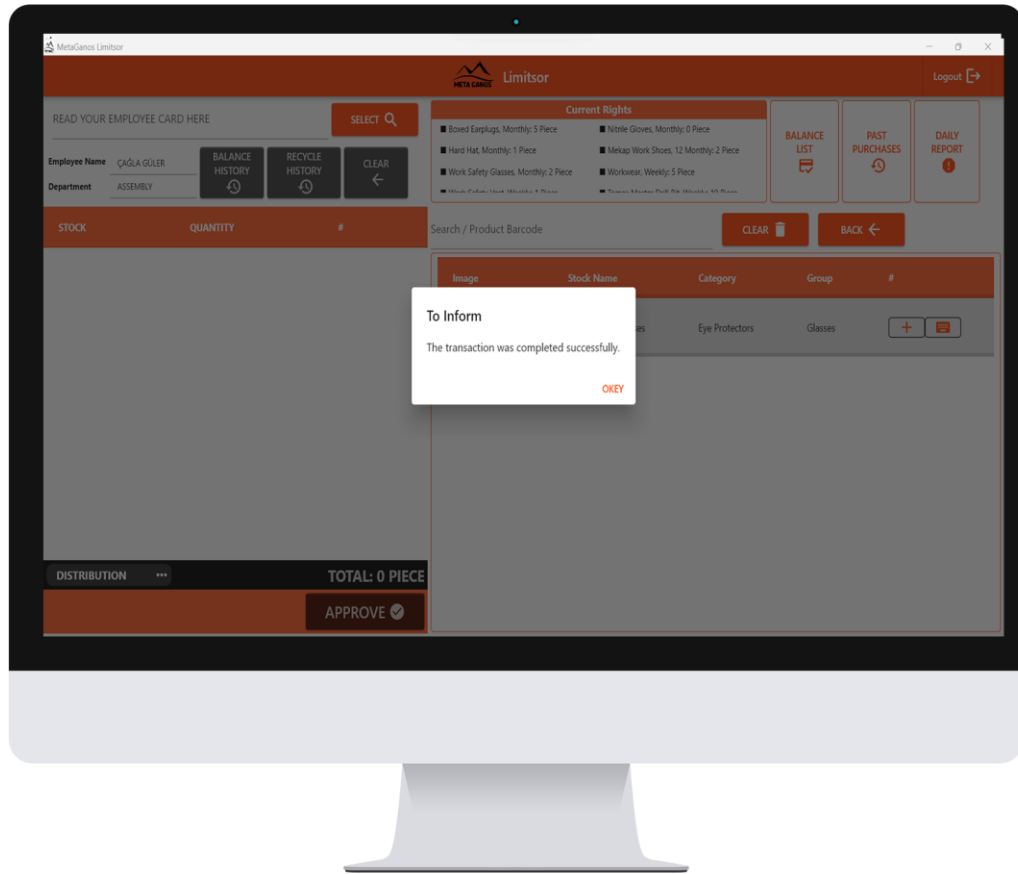

The product groups assigned to the employee appear on the screen

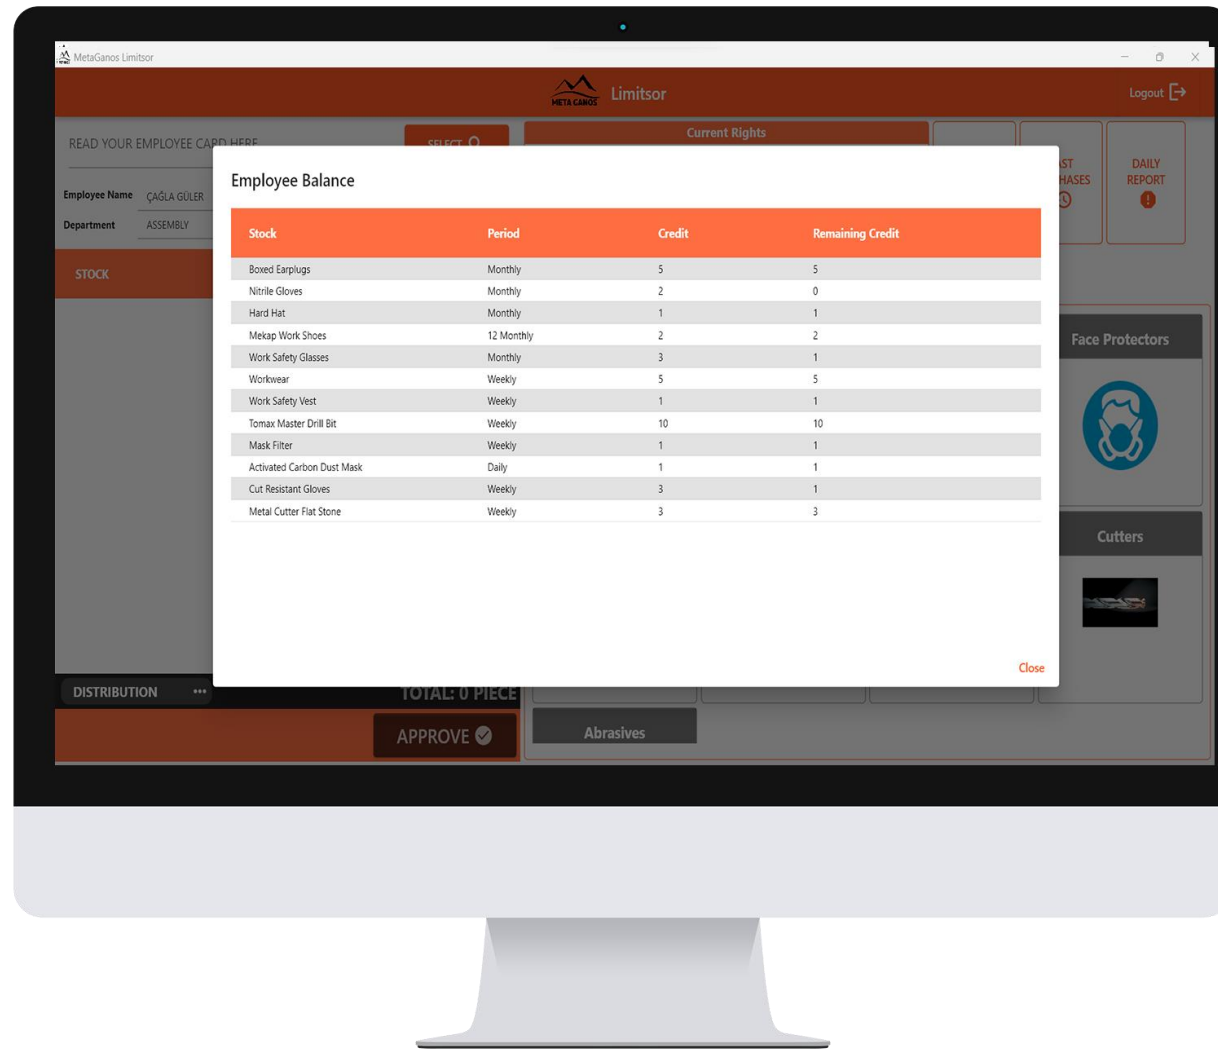

The products assigned to the employee appear on the screen

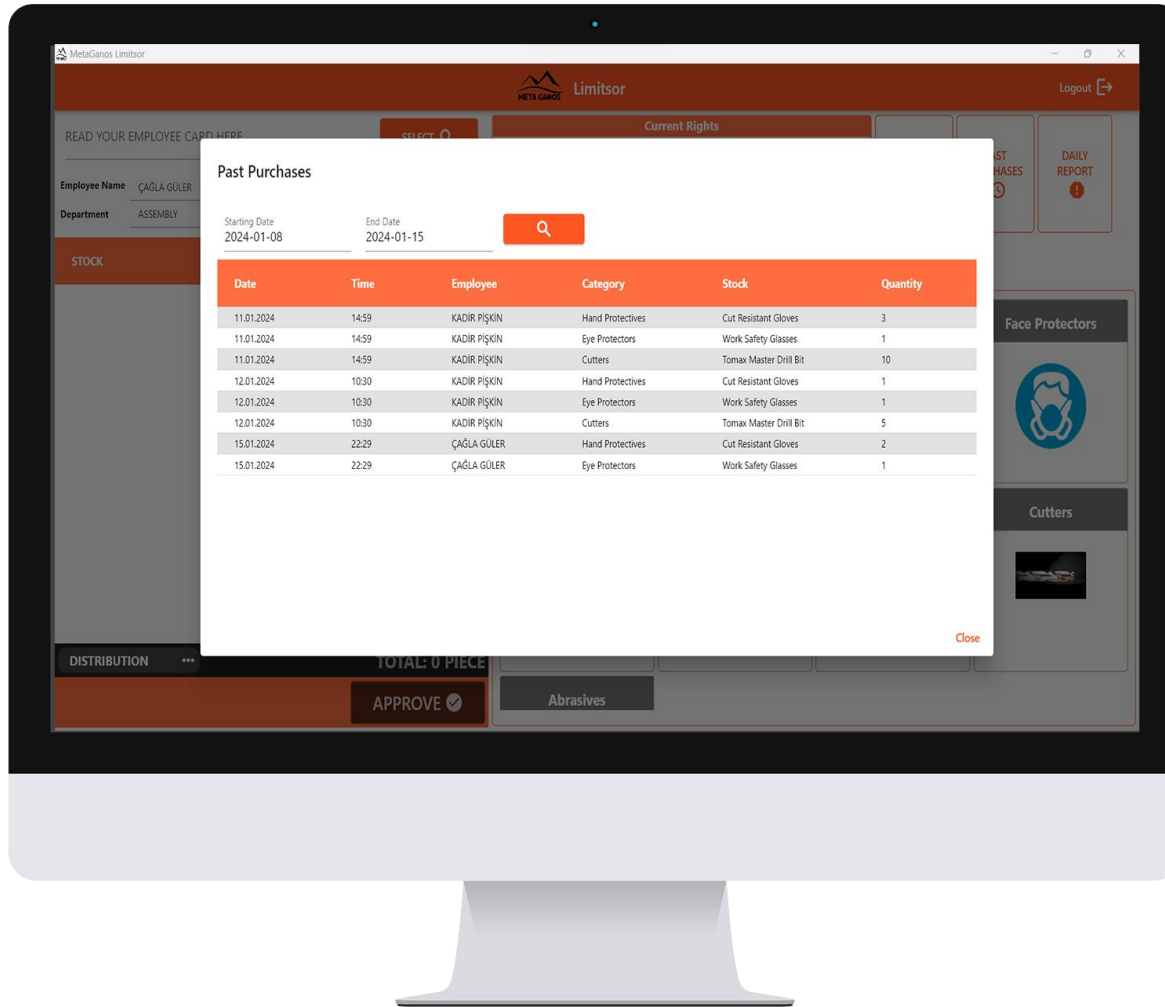

Equipment is added to the cart and confirmed.

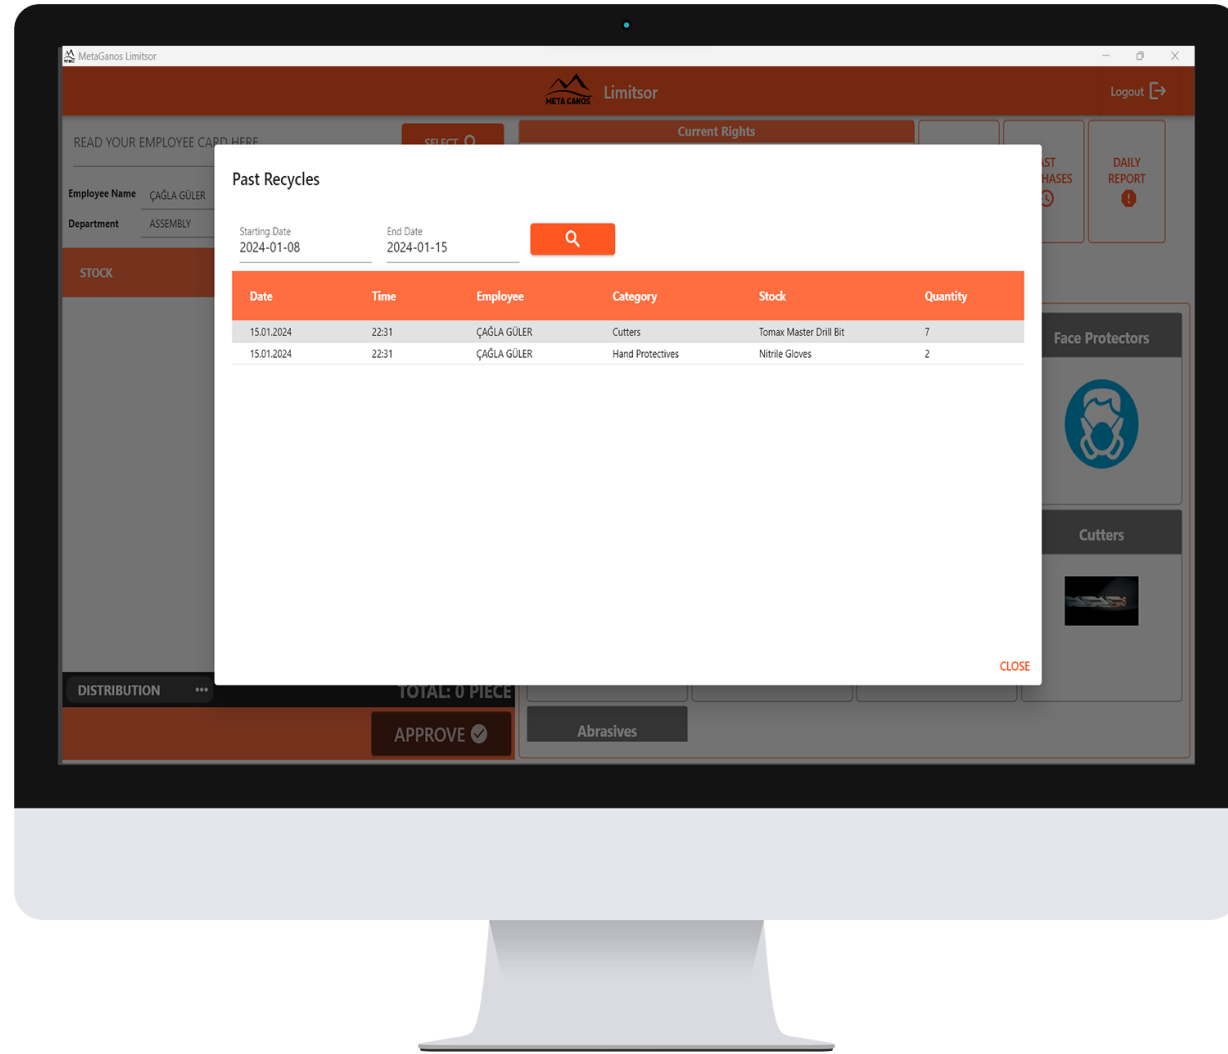

In the distribution interface, the warehouse personnel deliver the equipment through the system.
In the return interface, the warehouse personnel take back the equipment through the system.

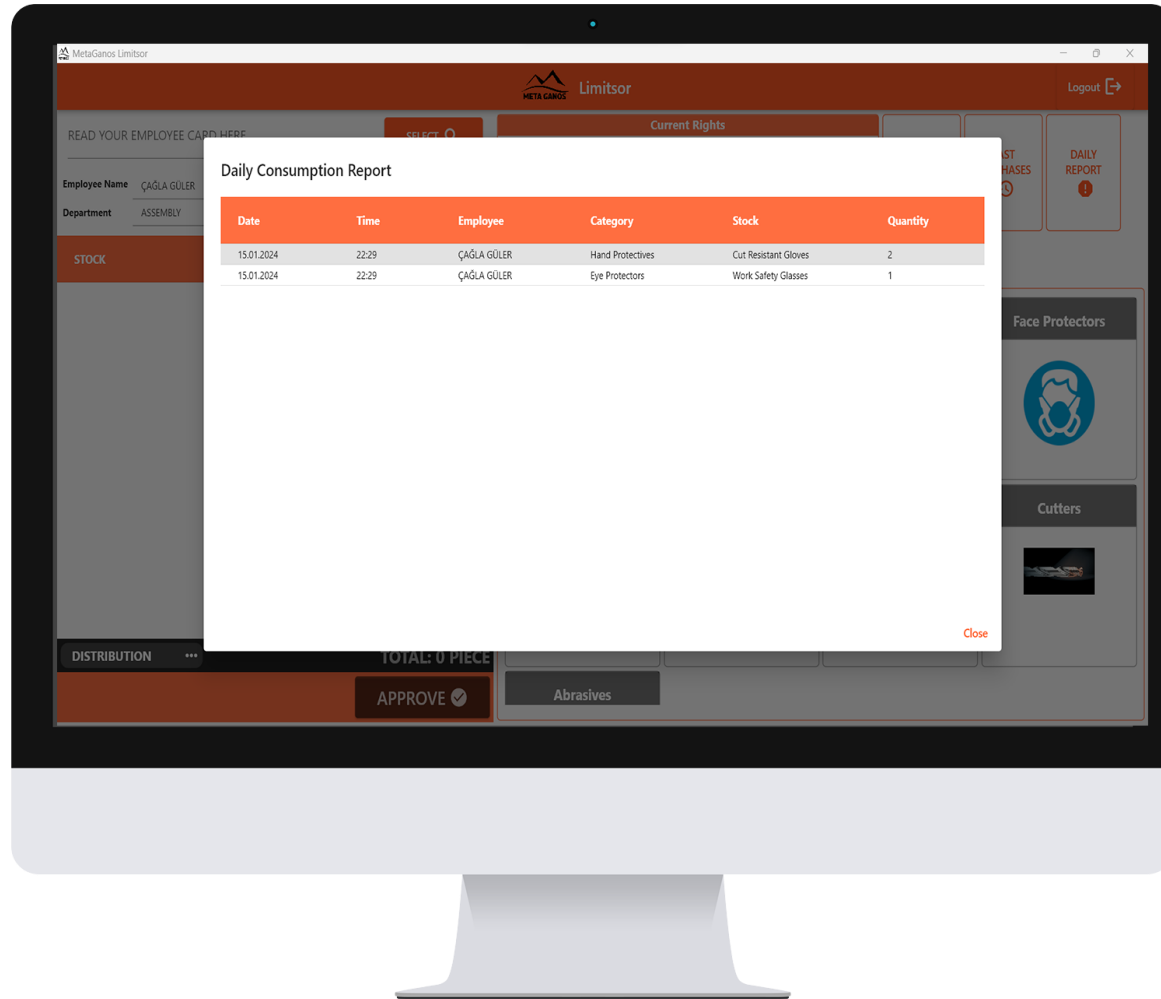

The remaining balance of the relevant personnel can be tracked through the software

All past purchases of the relevant personnel can be reported.

All past returns of the relevant personnel can be reported.

Daily consumption report for all purchases from the warehouse can be accessed instantly.

Software Features

02

03

04

- The software can work with the personnel cards you currently use.

- You can give daily, weekly, monthly, yearly product limits to your employees.

- Your employees can only take or return the products assigned to them.

- You can change the products and limits of employees through the software.

- Personnel, product, department, and factory-wide reports can be filtered between two dates.

- User interfaces with the desired number of different authorizations can be opened.

Advantages of the System

08
You can use your own personnel cards in the system.

01
You can track equipment on a personnel basis.

07
You can achieve a 30% equipment savings.

02
You can prevent misuse of equipment.

06
You can identify personnel who do not use equipment.

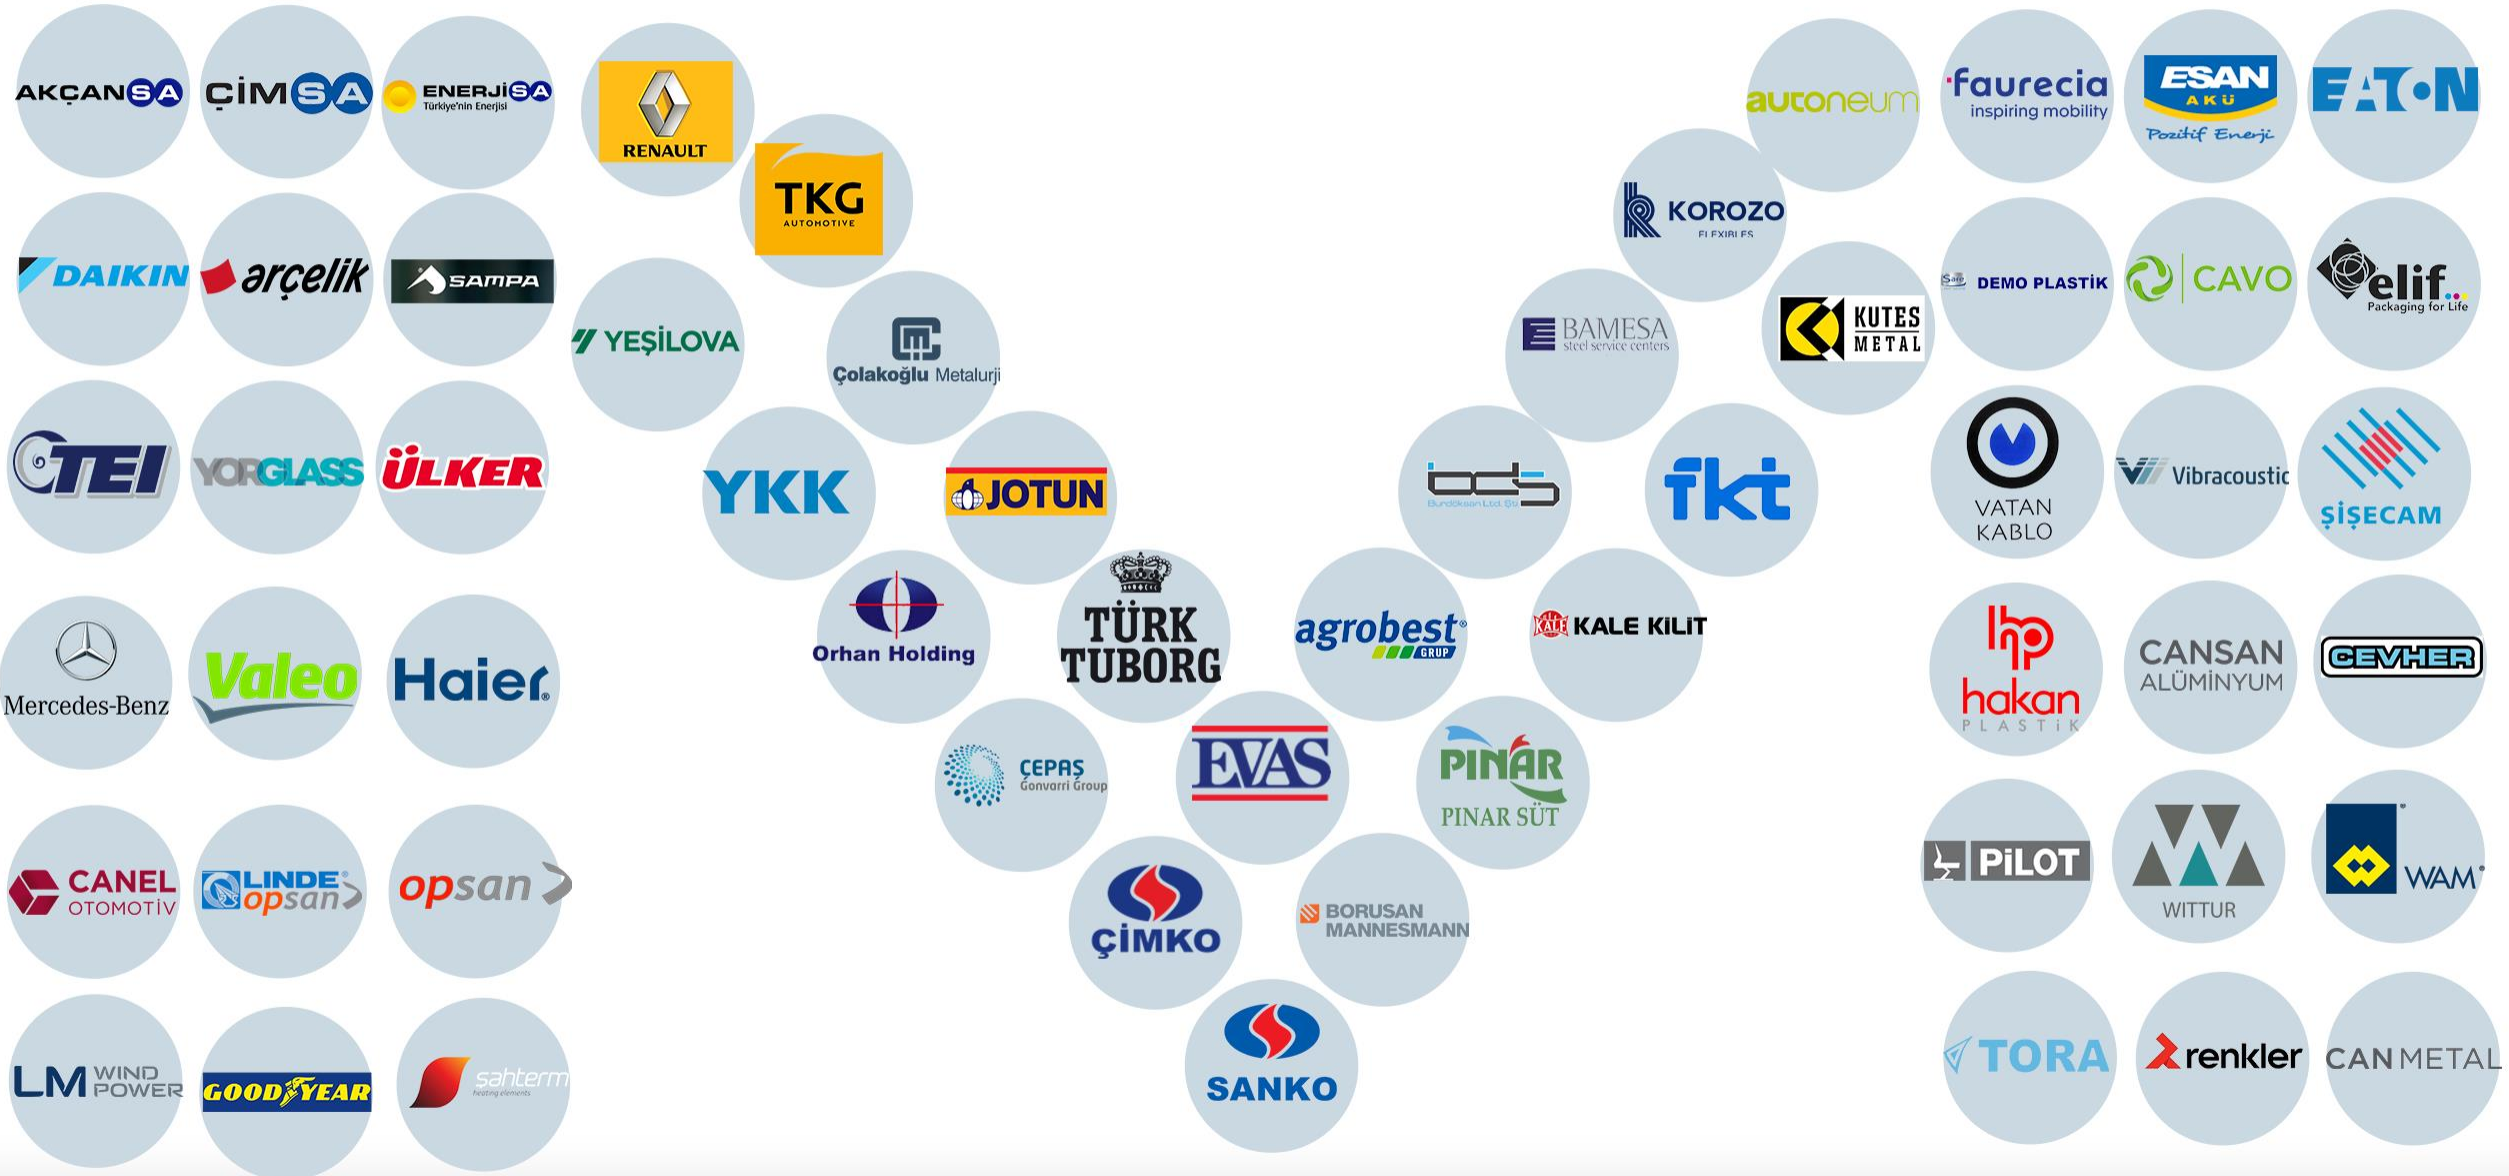

03
You can get reports in excel, pdf, html formats.

05
You can integrate the software with SAP and similar programs to automate personnel entries and track your warehouses.

04
You can distribute or take back all materials with the entitlement system.
